Super Swing

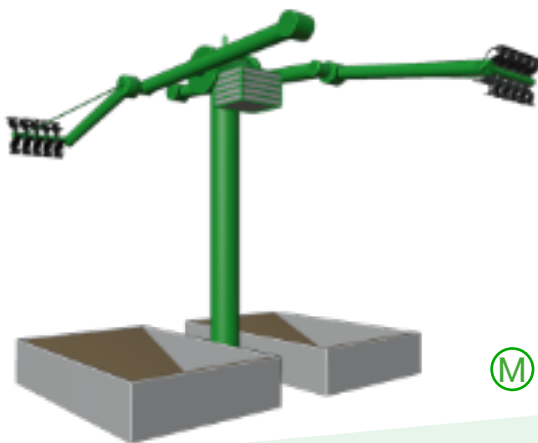

Super Swing

A tandem giant swing that takes you through ups and downs

Passengers sitting in 2 Gondolas, each with 5 front seats and 5 rear seats (back to back), feel like sitting on a foot of a giant while he is walking forward or backwards respectively.

Sounds cool and is pure fun for the entire family watching the passengers on the other "foot" or the spectators around the ride while you experience a rhythmic interplay between accelerating falling and weightlessness.

Two sizes are available while the "M" model is equipped with two swing arms and one gondola each with five front and five rear seats (back to back), the "S" model is equipped with one swing arm.

Ask for your custom-made theming to get your very own and unique "Super Swing".

Technical Specification
